Rationale for proposed changes or discontinuation:

Our degree requirements largely line up with the expectations at EMU because they are our primary transfer institution. The EMU BSW program has removed the BIO requirement for graduation. It would be helpful if our students could choose from any science/lab class rather than constraining them to BIO 101 or 102.

Change BIO 101 or 102 requirement to "Any Science w/ Lab w/a note to consult with program advisor if transferring to an institution other than EMU."

Rationale for proposed changes or discontinuation:

The majority of our students transfer to Eastern Michigan University (EMU) and EMU has changed their mathematics requirements from statistics to a general math course. This has prompted the AAHUST program to modify its requirements to allow students a greater freedom in choosing which mathematics course they take. It is important that students looking at schools other than EMU be aware that mathematics requirements may vary by school.

Early in the program, the student should contact an undergraduate advisor at the transfer college for specific admission and curriculum requirements and, if available, an unofficial transfer-credit evaluation.

Copies of articulation agreements and transfer guides are available in the Counseling Office on the second floor of the Student Center Building. Computers with access to the Internet Web sites of four-year colleges and universities are also available there.

Rationale for proposed changes or discontinuation:

Eastern Michigan University has in the past stipulated that a basic computer course be taken as a general education requirement. Since most students who complete the WCC Human Services Program intend to transfer to EMU, we have until now required that program students take CIS 100 in order to integrate our program with that of EMU. EMU has done away with their computer literacy requirement as of Fall 2007; accordingly, there is no further need for us to make CIS 100 a program requirement. CIS 100 will be replaced by a "general elective" course as a program requirement.

Program Approval Document

Human Services Transfer Track

May 15, 1998

A. Justification for Program Track:

The vast majority of current and past students in the Human Services Program report that they want to transfer to a senior-level college and receive a bachelor's degree. This new program track will meet that significant need. This new track gives students the opportunity to receive an Associate in Arts Degree plus fulfill transfer requirements and program requirements at senior-level colleges.

B. Cost Analysis:

There is no additional cost associated with this program because students in this track will utilize existing courses. No new courses need to be developed.

C. Enrollment Projections

Total enrollment in HSW 100 for fall and winter semesters of 1997-98 was 94 students. HSW 100 is the initial Human Services course and has been an effective indicator for future enrollment. Projected enrollment for the next several years is approximately 90 students per year.

D. Course Descriptions of New Courses Developed for Track

No new courses were developed for the Human Services Transfer Track. All of the existing specialty courses in the base program have been accepted for transfer by Eastern Michigan University. The only courses added for this track are support courses. Existing courses that meet the Michigan Association of College Registrars and Admissions Officers (MACROA) Transfer Agreement have been substituted for the support courses in the career entry track.

E. Analysis of Affected Instructional Units

This new track represents several changes in support courses, in the instructional units of English, Biology, and Sociology. A small but positive impact will occur with these departmental courses with a slight increase in enrollment.

F. Licensure/Accreditation (if applicable)

The Human Services instructors are members of the National Organization of Human Service Educators (N.O.H.S.E.) and its affiliate, the Council for Standards in Human Service Education (C.S.H.S.E.). The curriculum and internship program has been set following the guidelines established by C.S.H.S.E. The instructors anticipate applying for formal program approval in three to five years.

In September 1997, the Human Services instructors applied to the Social Work Board of Examiners of the State of Michigan to have the Human Services program approved for fulfilling the requirements for the Social Work Technician registration. This approval would qualify program students to easily obtain this level of certification upon completion of the program. To date we are waiting to hear from the Board.

The department is currently applying for Michigan State Board of Education approval which will make the program and certain students eligible for financial assistance through Perkins funds.

G. Articulations

The Human Services faculty have successfully negotiated an articulation agreement with the Social Work program at Eastern Michigan University. Plans are underway to also articulate this program to Madonna University, Wayne State University, and Marygrove College.
