

Program Information Report

Manufacturing & Automotive

Automotive Test Technician (APATT)

Associate in Applied Science Degree

Program Effective Term: Fall 2020

In this program, students will be introduced to the test and data acquisition processes used in automotive testing. Students will learn to assemble and disassemble components for automotive testing. Diagnosis, maintenance and proper operation of complex data acquisition equipment are essential. Students will learn to monitor and calibrate testing instruments. Job possibilities include working in a crash lab or other testing facility.

First Semester		(15 credits)
ASV 131	Automotive Electrical	4
ASV 132	Automotive Engines	4
MTT 102	Machining for the Technologies	2
	Restricted Electives select a minimum of 2 credits: ABR 114 or WAF 105	2
Elective	Writing Elective(s)	3
Second Semester		(15 credits)
ASV 256	Electrical and Electronic Systems	4
CST 185	Local and Mobile Networking Essentials	4
	Restricted Electives select a minimum of 4 credits: ABR 111, ABR 140, ASV 174, ASV 251, ASV 257, ASV 269, ASV 279, MST 110, MTT 102, or WAF 103	4
Elective	Arts/Human. Elective(s)	3
Third Semester		(13 credits)
ASV 277	Automotive Powertrain Systems	4
Elective	Math Elective(s)	3
Elective	Speech/Comp. Elective(s)	3
Elective	Nat. Sci. Elective(s)	3
Fourth Semester		(17 credits)
ABR 201	Lightweighting Composite Repair	4
ASV 270	Automotive Test and Development	4
	Restricted Electives to reach minimum 60 credits: ABR 111, ABR 140, ASV 174, ASV 251, ASV 257, ASV 269, ASV 279, MST 110, MST 220, MTT 102, WAF 103	6
Elective	Soc. Sci. Elective(s)	3
Minimum Credits Required for the Program:		60

Notes:

*Students may elect to take optional courses in Semester 5 to meet MTA. Please refer to the WCC MTA Transfer Agreement web page for more information: <http://www.wccnet.edu/services/transferresources/mta/>

**WASHTENAW COMMUNITY COLLEGE
PROGRAM CHANGE OR DISCONTINUATION FORM**

Program Code: Program Name:
 APATT Automotive Test Technician
 Division Code: Department:
 ATP Transportation Technologies

Effective Term:
 Fall 2020

Directions:

1. Attach the current program listing from the WCC catalog or Web site and indicate any changes to be made.
2. Draw lines through any text that should be deleted and write in additions. Extensive narrative changes can be included on a separate sheet.
3. Check the boxes below for each type of change being proposed. Changes to courses, discontinuing a course, or adding new courses as part of the proposed program change, must be approved separately using a Master Syllabus form, but should be submitted at the same time as the program change form.

Requested Changes:

- | | |
|---|---|
| <input type="checkbox"/> Review | <input type="checkbox"/> Program admission requirements |
| X Remove course(s): WAF109,
MEC101; <u>WAF 125</u> | <input type="checkbox"/> Continuing eligibility requirements |
| <input checked="" type="checkbox"/> Add course(s): <u>WAF 103</u> | <input type="checkbox"/> Program outcomes |
| <input type="checkbox"/> Program title (title was _____) | <input type="checkbox"/> Accreditation information |
| <input type="checkbox"/> Description | <input type="checkbox"/> Discontinuation (attach program discontinuation plan that includes transition of students and timetable for phasing out courses) |
| <input type="checkbox"/> Type of award | <input type="checkbox"/> Other |
| <input checked="" type="checkbox"/> Advisors <u>Add Niki Lee</u> | |
| <input type="checkbox"/> Articulation information | |

Show all changes on the attached page from the catalog.

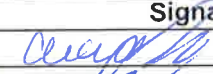

Rationale for proposed changes or discontinuation:
 MEC 101 and WAF 109 are being removed. MEC 101 is being removed from a restricted electives list. WAF109 is being replaced by WAF105 or ABR114. This change is being made to insure that all students will gain experience with transportation materials processing.

 The frequency of each course offering, the time(s) of day each semester, and the alignment of content with expressed employers' skill sets were considered.

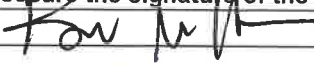

Financial/staffing/equipment/space implications:
 None

List departments that have been consulted regarding their use of this program.

| <input type="checkbox"/> Type of award | |
| <input type="checkbox"/> Advisors | |
| <input type="checkbox"/> Articulation information | |

Show all changes on the attached page from the catalog.

Rationale for proposed changes or discontinuation:

MEC 101, WAF 139, ASV 135 are being removed. Those courses are being replaced with WAF 109, CST 185, and restricted electives. Program goals and employer alignment were better improved with the addition of the new course and the updated restricted electives. WAF 109, a new course has safety content from ASV135, and is a prerequisite for other restricted elective WAF courses. CST 185 was added as a required course in collaboration with the Computer Instruction Department to add new content to this program to align with the technological advances in the target career path.

The frequency of each course offering, the time(s) of day each semester, and the alignment of content with expressed employer's skill sets were considered. Prerequisites were also reviewed, and the courses were chosen to limit registration restrictions that always require overrides. Department Chair of each department was consulted to consider prerequisite updates to avoid automatic unneeded overrides for registration.

Financial/staffing/equipment/space implications:

None

List departments that have been consulted regarding their use of this program.

WCC General Education Requirements Effective Fall 2018

Associate degree programs were updated to meet the revised WCC general education requirements below.

Course Distribution Requirements

Associate degree students must complete courses from each of six General Education content areas. The requirements vary, depending on which degree is being earned. The number of general education credit hours required for each degree is as follows.

	AA	AS	AAS
Writing/Composition	3-4 credits	3-4 credits	3-4 credits
2nd Writing/Composition or Communication	3-4 credits	3 credits	3 credits
Mathematics	3-4 credits	3-4 credits	3-4 credits
Natural Sciences ¹	7-8 credits	7-8 credits	3-4 credits
Social & Behavioral Science ²	6 credits	6 credits	3 credits
Arts and Humanities ³	6 credits	6 credits	3 credits
General Education Electives to reach 30 credits	0-2 credits	0-2 credits	N/A
Minimum	30 credits	30 credits	18 credits

¹ Two courses in Natural Science including one with laboratory experience (from two disciplines)

² From two disciplines

³ From two disciplines

WASHTENAW COMMUNITY COLLEGE

GENERAL EDUCATION REVISION AAS PROGRAM CHANGE FORM 2018-2019

Program Code: <i>AP7 II</i>	Program Name: <i>Automotive Test Technician</i>
Division Code: <i>ATP</i>	Department: <i>ASV</i>

This form is to be used only for General Education Revision Program Changes for Associate in Applied Science (AAS) programs. Any other program changes should be submitted separately using a standard Program Change Form.

Directions:

- Review each general education area under **Requested Changes** below and respond as needed.
- Attach the semester program layout showing the current program listing from the WCC catalog.
 - Indicate any changes to be made on the semester layout.
 - Draw a line through any courses that should be removed on the semester layout.
 - Write in any courses that need to be added on the semester layout.
- Submit this form and semester program layout to the Office of Curriculum and Assessment (SC 257).

Current General Education Requirements		Revised General Education Requirements 2018-2019	
AAS		AAS	
Writing	3-4 credits	English Composition	3 - 4 credits
Speech	3 credits	2 nd Course in English Composition or one course in Communication	3 - 4 credits
Mathematics	3 - 4 credits	Mathematics	3 - 4 credits
Natural Sciences	3 - 4 credits	Natural Sciences	3 - 5 credits
Social & Behavioral Sciences	3 credits	Social & Behavioral Sciences	3 credits
Arts & Humanities	3 credits	Arts & Humanities from	3 credits
Critical Thinking	0 credits	Total	18 credits
Computer & Information Literacy	3 credits		
Total	21-24 credits		

Please review each General Education Area in the chart below, and record the needed changes in the chart and on the attached semester program layout.

REQUESTED CHANGES	
General Education Area	
English Composition – The requirement for one writing/English composition course remains the same. No changes will be made unless specifically requested below. (Use Writing Elective or ENG 111)	
Optional Change:	<i>NC</i>
2 nd Course in English Composition or one course in Communication WCC previously required both a second composition/writing course and a communication course. Your options are:	
<ol style="list-style-type: none"> Allow students to select any course that meets composition/writing or communication (<i>recommended</i>). Require students to take a specific composition course (identify course below and on semester layout). Require students to take a specific communication course (identify course below and on semester layout). 	
Requested Change:	

Mathematics – The requirement for one mathematics course remains the same. However, the courses that meet the MTA requirement have changed slightly. See the course listing for details
Optional Change: <i>NC</i>
Natural Sciences - The requirement for one natural science course remains the same. No changes will be made unless specifically requested below.
Optional Change: <i>NC</i>
Social & Behavioral Sciences – The requirement for one social and behavioral science course remains the same. No changes will be made unless specifically requested below.
Optional Change: <i>NC</i>
Arts & Humanities – The requirement for one arts and humanities course remains the same. No changes will be made unless specifically requested below. (Note: A department can designate a COM course as a requirement here. The same course cannot be counted in two areas.)
Optional Change: <i>NC</i>
Computer and Information Literacy The requirement for computer and information literacy has been removed. Your options are: <ol style="list-style-type: none"> 1. Continue to require a specific computer course. If a specific course is required in your program, we will leave it there. If you previously used "Computer and Information Literacy Course," you will need to specify either a specific course or a list of courses from which to choose. 2. Remove the computer and information literacy course if the program will still meet the minimum of 60 credit hours. 3. Remove the computer and information literacy course and replace the course with elective or other credits as needed to meet the minimum of 60 credit hours.
Required Change:

Reviewer	Print Name	Signature	Date
Initiator	<i>Allen Day</i>	<i>[Signature]</i>	<i>12/12/2017</i>

Program Information Report

APATT

School of Automotive and Motorcycle Technology

If you are looking for the best technical training in the automotive or motorcycle field, WCC's School of Automotive and Motorcycle Technology is the place for you. Whether your focus is finding employment as a technician, learning about performance equipment, or creating a custom look, our introductory and advanced certificate programs, as well as associate degrees, will enhance your personal and professional qualifications. These programs offer the perfect blend of classroom and hands-on education not available in many other educational settings.

Washtenaw Community College offers programs at several levels for students who want to begin new careers, or advance in their existing careers. The first level is the certificate, which can vary from nine to thirty-six credits, depending on the field. Certificates generally prepare students for entry-level jobs.

After completing a certificate, students can progress to the next level, the advanced certificate. The credit hours required for these programs also vary. This type of certificate provides a more specialized level of skill development, and often allows students to upgrade their positions at their places of employment.

The next level, an Associate in Applied Science, is available for some programs. For some career fields, it is possible to earn a certificate, advanced certificate (if one exists), and an Associate in Applied Science degree in the same field. In these cases, the credit hours from the certificate and advanced certificate can be applied to the credit hours needed for the Associate in Applied Science degree.

Alternatively, students can earn an AAS in Occupational Studies by completing a certificate, advanced certificate and General Education requirements.

Automotive Services

The automotive certificate prepares the student for work as an automotive services technician, diagnosing and repairing malfunctions in automobile systems.

Program Information Report

Automotive Test Technician (APATT)

Associate in Applied Science Degree

Program Effective Term: Fall 2015

In this program, students will be introduced to the test and data acquisition processes used in automotive testing. Students will learn to assemble and disassemble components for automotive testing. Diagnosis, maintenance and proper operation of complex data acquisition equipment are essential. Students will learn to monitor and calibrate testing instruments. Job possibilities include working in a crash lab or other testing facility.

First Semester (15 credits)

ASV 131	Automotive Electrical	4
ASV 132	Automotive Engines	4
MTT 102	Machining for Auto Applications	2
WAF 105	Introduction to Welding Processes	2
Elective	Writing Elective(s)	3-4

Second Semester (15 credits)

ASV 135	Facility Operations	3
ASV 256	Electrical and Electronic Systems	4
MEC 101	3D Modeling and Blueprint Reading	2
Elective	Arts/Human. Elective(s)	3
Elective	Computer Lit. Elective(s)	3

Third Semester (14 credits)

ASV 277	Automotive Powertrain Systems	4
WAF 200	Layout Theory Welding	3
Elective	Math Elective(s)	4
Elective	Speech Elective(s)	3

Fourth Semester (16 credits)

Program Features Program's purpose and its goals. Criteria for entry into the program, along with projected enrollment figures. Connection to other WCC programs, as well as accrediting agencies or professional organizations. Special features of the program.	<p>This program is being developed in coordination with the Skilled Trades Equipment grant. In this program, student will develop a technical background in both automotive component testing and defect analysis based on data acquisition. The student will gain experience in developing and validating engine and automotive component testing systems. Pre-production testing of components occurs before the engine is put together. Topics covered include fuel mapping and thermal efficiency.</p> <p>This program utilizes some existing courses from the automotive services (APASRV) associate degree program to provide the background for testing automotive components. Much of the work takes place in crash labs and other testing facilities.</p>	
Need Need for the program with evidence to support the stated need.	<p>This program is developed in coordination with the Skilled Trades Equipment grant and as a result of round table discussion with industry leaders. Three local employers, Toyota (Testing Center), Roush Industries and Ford Testing in Allen Park, who participated in the round table discussion, identified openings in automotive testing labs. These employers were able to identify the key knowledge and skills needed for students to be successful in this career field.</p>	
Program Outcomes/Assessment State the knowledge to be gained, skills to be learned, and attitudes to be developed by students in the program. Include assessment methods that will be used to determine the effectiveness of the program.	<u>Outcomes</u> 1. Develop and complete an automotive testing sequence used in automotive part defect mapping. 2. Acquire, analyze and interpret test data. 3. Recognize and appropriately use advanced, lightweight automotive materials	<u>Assessment method</u> 1. ASV 270 Departmental Exam 2. ASV 270 Departmental Exam 3. ATC 203 Departmental Exam ATT

Assessment plan:

Program outcomes to be assessed	Assessment tool	When assessment will take place	Courses/other populations	Number students to be assessed
Develop and complete an automotive testing sequence used in automotive part defect mapping.	ASV 270 Departmental Exam	Fall 2018	All sections of ASV 270	All students
Acquire, analyze and interpret test data.	ASV 270 Departmental Exam	Fall 2018	All sections of ASV 270	All students
Recognize and use advanced, lightweight automotive materials.	ATT ATG 203 Departmental Exam	Fall 2018	All sections of ATG 203 ATT	All students

Scoring and analysis plan:

1. Indicate how the above assessment(s) will be scored and evaluated (e.g. departmentally-developed rubric, external evaluation, other). Attach the rubric.

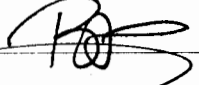

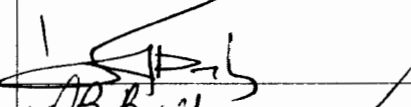

Exams will be scored using a departmentally-developed rubric and an answer key

2. Indicate the standard of success to be used for this assessment.

75% of the students will score 70% or higher.

3. Indicate who will score and analyze the data.

Departmental faculty will analyze the data.
