

Program Information Report

Science, Computer Technology, Engineering & Math

Computer Systems and Networking (APCSN)

Associate in Applied Science Degree

Program Effective Term: Fall 2020

In this associate degree program, students will learn about the latest desktop, server, and networking technologies. This program has a core of hardware, operating system, networking, and scripting courses that all students must complete. In addition to the common core subjects, students will select a specialized track in one of the following areas: Local and Wide Area Networking, Microsoft Network Operating Systems (Server and Client), and Linux Network Operating Systems.

Articulation:

Eastern Michigan University, several BS degrees

Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: <http://www.wccnet.edu/curriculum/articulation/levelone/colleges/>.

Minimum Concentration Credits Required for the Program:

62

Select a concentration.

Computer Systems and Networking Concentrations**Linux Network Operating System (LNOS) (63 credits)****First Semester (14 credits)**

CST 118	Microsoft Command Line Fundamentals	2
CST 160	Computer Technology I	4
CST 165	Computer Technology II	4
CST 185	Local and Mobile Networking Essentials	4

Second Semester (17 credits)

CIS 121	Linux/UNIX I: Fundamentals	4
CNT 201	Administering Microsoft Windows Client Operating Systems	3
CNT 211 or	Installation, Storage, and Compute - Windows Server 2016	
CNT 223 or	Networking with Windows Server 2016	
CNT 224	Identity with Windows Server 2016	4
Elective	Math Elective(s)	3
Elective	Speech/Comp. Elective(s)	3

Third Semester (19 credits)

CIS 206	Linux/UNIX II: Basic System Administration, Networking, and Security	4
CIS 221	Linux/UNIX Programming and Scripting I	4
CNT 206	Introduction to Networks	4
CNT 216	Routing and Switching Essentials	4
Elective	Nat. Sci. Elective(s)	3

Fourth Semester (13 credits)

CIS 208	Linux/UNIX III: Intermediate System Administration, Networking, and Security	4

Elective	Arts/Human. Elective(s)	3

Minimum Credits Required for the Concentration or Option: 62

Minimum Credits Required for the Program: 62

Notes:

*Students transferring to a 4-year college should consider taking ENG 111 and completing MTA.

PROGRAM CHANGE OR DISCONTINUATION FORM

Program Code: (APCSN) Program Name: Computer Systems & Networking

Effective Term: Fall 2020

Division Code: BCTD Department: CIS

Directions:

1. Attach the current program listing from the WCC catalog or Web site and indicate any changes to be made.
2. Draw lines through any text that should be deleted and write in additions. Extensive narrative changes can be included on a separate sheet.
3. Check the boxes below for each type of change being proposed. Changes to courses, discontinuing a course, or adding new courses as part of the proposed program change, must be approved separately using a Master Syllabus form, but should be submitted at the same time as the program change form.

Requested Changes:

- Review
- Remove course(s): **CST275, CIS161 & CNT236**
- Add course(s): **CNT290 & CSS210**
- Program title (title was _____)
- Description
- Type of award
- Advisors
- Articulation information

- Program admission requirements
- Continuing eligibility requirements
- Program outcomes
- Accreditation information
- Discontinuation (attach program discontinuation plan that includes transition of students and timetable for phasing out courses)
- Other

Show all changes on the attached page from the catalog.

1. Forensics Concentration is being eliminated.
2. CIS221 has been moved to the third semester in the Linux concentration.
3. A number of General Education courses have been moved to different semesters.
4. "BMG205 or CST270" have been changed from "4" to "3".
5. Remove Mike Galea from the list of advisor.
6. Remove CIS 161 from the program
7. Remove CNT 236 from program and add CNT 290 or CSS 210 to the program
8. Remove the year from the title of CNT 211, 223 and 224

Rationale for proposed changes or discontinuation:

1. The Forensics concentration is being eliminated. There are two reasons which justify this change. The first is that the two Forensics courses, CST270 and CNT290 which would make up the primary courses in the Forensics concentration are now included in one of the Cisco Concentration options which if taken, would result in a virtually identical path as a revised Forensics Concentration. Secondly, the two Forensics courses will be also be included as part of the CSS Security Degree program. For these two reasons, there is no justification for a separate Forensics concentration.
2. With the Linux concentration, CIS221 has been moved to the Third Semester to provide consistency within the Linux Program.
3. A number of General Education courses have been switched around to better balance the hours for all semesters, and to lower the hours for the first semester of the program, eliminating the overwhelming effect that a high number of hours for the first semester can have on beginning students starting out in our programs.
4. The "or" option for the CST270 or BMG205 is being changed to reflect the lower of the two courses (BMG205

is three credit hours) as we are trying to show in our programs the minimum amount of hours to complete the degree.

5. Mike Galea has retired and shouldn't be listed as an advisor.
6. CIS161, PowerShell, is being removed as a requirement for all concentrations which are part of the Associate Degree. The justification for this lies with the objectives for that class being better suited for a programming discipline with the Administrative aspects of PowerShell already significantly included in the Windows classes. The basic scripting, which had been also part of the PowerShell class will now be included in CIS121, the first Linux Course
7. The Cisco concentration uses materials developed by Cisco directly, and they are making a significant change to their CCNA program, resulting in it being reduced to three courses. However, for the Cisco concentration in our Degree and Certificate programs, the desire is to keep the concentration at four courses at WCC. Therefore in line with this, and the increased emphasis on Network Security, we will include a fourth course, replacing CNT236 which will be an option of either - CNT290, Network Forensics (face to face) OR CSS210 Network Perimeter Protection – CCNA Security (giving an on-line option for Cisco completion matching up with the on-line option for the other three Cisco courses.). In line with this, in the Cisco concentration, even though CST 270 (Digital Forensics) is a requirement to take CNT290, (Network Forensics), with the **on-line** alternative to this course, CSS 210, the students should have the **on-line** option of BMG205 so that both requirements could be satisfied **on-line**, as CST270 is not a required option for CSS 210.
8. The version of Windows Server (2016) has been deleted from the Windows Server Class Titles (CNT211, CNT223, and CNT224) in order to eliminate having to change the course titles every time a new version comes out, which lately has been in less than a two year period. (We are presently using Server 2019)

PROGRAM CHANGE OR DISCONTINUATION FORM

ProgramCode:(APCSN) Program Name: Computer Systems & Networking Effective Term: Fall 2019

Division Code: BCTD Department: CIS

Directions:

1. Attach the current program listing from the WCC catalog or Web site and indicate any changes to be made.
2. Draw lines through any text that should be deleted and write in additions. Extensive narrative changes can be included on a separate sheet.
3. Check the boxes below for each type of change being proposed. Changes to courses, discontinuing a course, or adding new courses as part of the proposed program change, must be approved separately using a Master Syllabus form, but should be submitted at the same time as the program change form.

Requested Changes:

- Review
- Remove course(s): CST225, Security Track
- Add course(s): CST185, CNT223, CNT224
- Program title (title was _____)
- Description
- Type of award
- Advisors
- Articulation information

- Program admission requirements
- Continuing eligibility requirements
- Program outcomes
- Accreditation information
- Discontinuation (attach program discontinuation plan that includes transition of students and timetable for phasing out courses)
- Other 1. Total Credit Hours for each of the ~~five~~ ^{four} alternate paths for getting this degree have increased by one.
 2. CNT223, or CNT224, are alternates to CNT211 for four of the five options – the other option already includes them. They do NOT add additional credit hours to the program.
 3. Removal of the Security Track as part of this degree

Show all changes on the attached page from the catalog.

Rationale for proposed changes or discontinuation:

The Program is being changed to align with five changes, the first three deal with the change of Class Number, Title and Credit hours for CST225/CST185 which were reflected in the recent syllabus update.

1. Course Number is being changed to reflect that it is part of the first-year of the CTCSTC program, along with CST118, CST160, and CST165. Also it is now an initial course in the Automotive Department Programs as well.
2. Course Name is being changed to reflect that Networking's scope, types of Devices, etc. has vastly changed in the last five to 10 years – networking is no longer restricted to in-office LAN networks.
3. Credit hours for the Course (3 to 4) is being changed to reflect the actual contact hours per week in the course (4) and to support the additional material (both lectures and labs) reflecting new and varied types of networking (such as that used in Autonomous vehicles) that are being introduced – the change is reflected in the credit hour totals for each of the alternate paths that make up this Associate Degree and is shown below for each.
4. The fourth change deals with alternatives for taking the Microsoft Server Administration Requirement. Starting with Server 2016, Microsoft no longer uses a stepped structure with the three MCSA certification courses building on each other – i.e. - a beginning level course, a more advanced course, and a most advanced course. With Server 2016, the three courses now are all "independent" of each other, covering different areas of Administration. This has real advantages for the Students:
 - a. Students will have the opportunity to take the course which may best fit their interests and goals, the program they are enrolled in, etc.
 - b. With three possible courses, more times are available for taking courses which better fit student schedules
5. Fifth change is the removal of the Security Track, as there is a totally new Cyber Security Associate Degree.

WCC General Education Requirements Effective Fall 2018

Associate degree programs were updated to meet the revised WCC general education requirements below.

Course Distribution Requirements

Associate degree students must complete courses from each of six General Education content areas. The requirements vary, depending on which degree is being earned. The number of general education credit hours required for each degree is as follows.

	AA	AS	AAS
Writing/Composition	3-4 credits	3-4 credits	3-4 credits
2nd Writing/Composition or Communication	3-4 credits	3 credits	3 credits
Mathematics	3-4 credits	3-4 credits	3-4 credits
Natural Sciences ¹	7-8 credits	7-8 credits	3-4 credits
Social & Behavioral Science ²	6 credits	6 credits	3 credits
Arts and Humanities ³	6 credits	6 credits	3 credits
General Education Electives to reach 30 credits	0-2 credits	0-2 credits	N/A
Minimum	30 credits	30 credits	18 credits

¹ Two courses in Natural Science including one with laboratory experience (from two disciplines)

² From two disciplines

³ From two disciplines

Program Information Report

Computer Systems and Networking (APCSN)**Associate in Applied Science Degree**Program Effective Term: **Fall 2018**

In this program, students will learn about the latest desktop, server, and networking technologies. This program has a core of hardware, operating system and scripting that all students must complete. In addition to the common core subjects, students will select a specialized track in one of the following areas: Local and Wide Area Networking, Microsoft Network Operating Systems, Linux Network Operating Systems, Computer and Network Security, or Data Recovery.

Articulation:

Davenport University, Bachelor degree;
Eastern Michigan University, several BS degrees.

Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site:
<http://www.wccnet.edu/curriculum/articulation/levelone/colleges/>.

Minimum Concentration Credits Required for the Program:**65**

Select a concentration.

GENERAL EDUCATION REVISION AAS PROGRAM CHANGE FORM 2018-2019

Due December 8, 2017

Program Code: APCSN	Program Name: Computer Systems and Networking
Division Code: BCT	Department: CIS

This form is to be used only for General Education Revision Program Changes for Associate in Applied Science (AAS) programs. Any other program changes should be submitted separately using a standard Program Change Form.

Directions:

- Review each general education area under **Requested Changes** below and respond as needed.
- Attach the semester program layout showing the current program listing from the WCC catalog.
 - Indicate any changes to be made on the semester layout.
 - Draw a line through any courses that should be removed on the semester layout.
 - Write in any courses that need to be added on the semester layout.
- Submit this form and semester program layout to the Office of Curriculum and Assessment (SC 257).

Current General Education Requirements AAS		Revised General Education Requirements 2018-2019 AAS	
Writing	3-4 credits	English Composition	3 - 4 credits
Speech	3 credits	2 nd Course in English Composition or one course in Communication	3 - 4 credits
Mathematics	3 - 4 credits	Mathematics	3 - 4 credits
Natural Sciences	3 - 4 credits	Natural Sciences	3 - 5 credits
Social & Behavioral Sciences	3 credits	Social & Behavioral Sciences	3 credits
Arts & Humanities	3 credits	Arts & Humanities from	3 credits
Critical Thinking	0 credits	Total	18 credits
Computer & Information Literacy	3 credits		
Total	21-24 credits		

Please review each General Education Area in the chart below, and record the needed changes in the chart and on the attached semester program layout.

REQUESTED CHANGES	
General Education Area	
English Composition - The requirement for one writing/English composition course remains the same. No changes will be made unless specifically requested below. (Use Writing Elective or ENG 111)	
Optional Change:	<i>none</i>
2nd Course in English Composition or one course in Communication WCC previously required both a second composition/writing course and a communication course. Your options are:	
<ol style="list-style-type: none"> Allow students to select any course that meets composition/writing or communication (<i>recommended</i>). Require students to take a specific composition course (identify course below and on semester layout). Require students to take a specific communication course (identify course below and on semester layout). 	
Requested Change:	<i>none - still listing an unspecified speech course</i>

	Mathematics - The requirement for one mathematics course remains the same. However, the courses that meet the MTA requirement have changed slightly. See the course listing for details
	Optional Change: <i>None</i>
	Natural Sciences - The requirement for one natural science course remains the same. No changes will be made unless specifically requested below.
	Optional Change: <i>none</i>
	Social & Behavioral Sciences - The requirement for one social and behavioral science course remains the same. No changes will be made unless specifically requested below.
	Optional Change: <i>none</i>
	Arts & Humanities - The requirement for one arts and humanities course remains the same. No changes will be made unless specifically requested below. (Note: A department can designate a COM course as a requirement here. The same course cannot be counted in two areas.)
	Optional Change: <i>None</i>
	Computer and Information Literacy The requirement for computer and information literacy has been removed. Your options are: <ol style="list-style-type: none"> 1. Continue to require a specific computer course. If a specific course is required in your program, we will leave it there. If you previously used "Computer and Information Literacy Course," you will need to specify either a specific course or a list of courses from which to choose. 2. Remove the computer and information literacy course if the program will still meet the minimum of 60 credit hours. 3. Remove the computer and information literacy course and replace the course with elective or other credits as needed to meet the minimum of 60 credit hours.
	Required Change: <i>none - Not listed as a separate requirement</i>

Program Information Report

School of Information Technology

The School of Information Technology gathers the diverse areas that make up the computer technology of today. From basic programming languages to systems development through networking, these programs provide the core of information technology. Develop skills in computer networking or programming in the growing field of applied information technology.

Washtenaw Community College offers programs at several levels for students who want to begin new careers, or advance in their existing careers. The first level is the certificate, which can vary from nine to thirty-six credits, depending on the field. Certificates generally prepare students for entry-level jobs.

After completing a certificate, students can progress to the next level, the advanced certificate. The credit hours required for these programs also vary. This type of certificate provides a more specialized level of skill development, and often allows students to upgrade their positions at their places of employment.

The next level, an Associate in Applied Science, is available for some programs. For some career fields, it is possible to earn a certificate, an advanced certificate, and an Associate in Applied Science degree in the same field. In these cases, the credit hours from the certificate and advanced certificate can be applied to the credit hours needed for the Associate in Applied Science degree.

Alternatively, students can earn an AAS in Occupational Studies by completing a certificate, an advanced certificate (if it exists) and General Education requirements.

Networking

Develop and manage computer networks as a network administrator/engineer.

PROGRAM CHANGE OR DISCONTINUATION FORM

Program Code:
APCSN

Program Name: Computer Systems
and Networking

Effective Term: F2015

Division Code:
BCT

Department: Computer Instruction

Directions:

1. Attach the current program listing from the WCC catalog or Web site and indicate any changes to be made.
2. Draw lines through any text that should be deleted and write in additions. Extensive narrative changes can be included on a separate sheet.
3. Check the boxes below for each type of change being proposed. Changes to courses, discontinuing a course, or adding new courses as part of the proposed program change, must be approved separately using a Master Syllabus form, but should be submitted at the same time as the program change form.

Requested Changes:

- | | |
|---|---|
| <input type="checkbox"/> Review | <input type="checkbox"/> Program admission requirements |
| <input type="checkbox"/> Remove course(s): | <input type="checkbox"/> Continuing eligibility requirements |
| <input checked="" type="checkbox"/> Add course(s): <u>CST 278 to Computer Forensics</u> | <input type="checkbox"/> Program outcomes |
| <input type="checkbox"/> Program title (title was _____) <u>Concentration (was Data Recovery)</u> | <input type="checkbox"/> Accreditation information |
| <input type="checkbox"/> Description | <input type="checkbox"/> Discontinuation (attach program discontinuation plan that includes transition of students and timetable for phasing out courses) |
| <input type="checkbox"/> Type of award | <input checked="" type="checkbox"/> Other <u>Prerequisite change</u> |
| <input type="checkbox"/> Advisors | <u>Course order modification</u> |
| <input type="checkbox"/> Articulation information | |
- include BMG205 or CST270 in NETW concentration and MNOS concentration.

Show all changes on the attached page from the catalog.

Rationale for proposed changes or discontinuation:

Students who complete CST 225 before enrolling in either CNT201 or CNT 211 are far more successful than those who do not. To improve student success, we wish to change the program course list to include CST 225 in the first semester. See reverse side for more. (over)

Financial/staffing/equipment/space implications:

None

List departments that have been consulted regarding their use of this program.

None. This only affects Computer Networking majors

DEPARTMENT DIVISION JAN 2015

Change the Data Recovery specialty To ~~Data~~ Computer Forensics
will more accurately describe the program.

The Computer Forensics option needs the addition of CST 278
to provide the proper level of skills for graduates of this
program.

BMG 205 and CST 270 offer students additional
options to gain complimentary skills (interpersonal/networking)
that match offerings in the certificate program (per employers).

Computer Systems and Networking

Associate of Applied Science Degree

Program Description

In this program students will learn about the latest desktop, server, and networking technologies. This program has a concentration of hardware, operating system and scripting that all students must complete. In addition to the common core subjects, students will select a specialized track in one of the following areas: Local and Wide Area Networking, Microsoft Network Operating Systems, Linux Network Operating Systems, Computer and Network Security, Data Recovery, or Virtualization.

PROGRAM CHANGE OR DISCONTINUATION FORM

Program Code: **APCNTM** Program Name: **Computer Networking**
 Division Code: **BCTD** Department: **CIS**

Effective Term: **Winter 2012**

Directions:

1. Attach the current program listing from the WCC catalog or Web site and indicate any changes to be made.
2. Draw lines through any text that should be deleted and write in additions. Extensive narrative changes can be included on a separate sheet.
3. Check the boxes below for each type of change being proposed. Changes to courses, discontinuing a course, or adding new courses as part of the proposed program change, must be approved separately using a Master Syllabus form, but should be submitted at the same time as the program change form.

Requested Changes:

- | | |
|---|---|
| <input type="checkbox"/> Review | <input type="checkbox"/> Program admission requirements |
| <input checked="" type="checkbox"/> Remove course(s): ELE 174, ELE 299, CSS 270 _____ | <input type="checkbox"/> Continuing eligibility requirements |
| <input checked="" type="checkbox"/> Add course(s): BMG 205, CST 174, CST 270 _____ | <input type="checkbox"/> Program outcomes |
| <input type="checkbox"/> Program title (title was _____) | <input type="checkbox"/> Accreditation information |
| <input type="checkbox"/> Description | <input type="checkbox"/> Discontinuation (attach program discontinuation plan that includes transition of students and timetable for phasing out courses) |
| <input type="checkbox"/> Type of award | <input type="checkbox"/> Other _____ |
| <input type="checkbox"/> Advisors | |
| <input type="checkbox"/> Articulation information | |

Show all changes on the attached page from the catalog.

Rationale for proposed changes or discontinuation:

ELE 299 Customer Relations has been discontinued and replaced with a similar course: BMG 205 Creating the Customer Experience. Co-op opportunities for this program are no longer being managed by the ELE Department, and CST 174 is a more accurate course number than ELE 174 for Co-op. CSS 270 Computer Security VII (Data Recovery I) is now CST Data Recovery and Analysis.

Financial/staffing/equipment/space implications:

None.

List departments that have been consulted regarding their use of this program.

CIS

Program Information Report

School of Information Technology

The School of Information Technology gathers the diverse areas that make up the computer technology of today. From basic programming languages to systems development through networking, these programs provide the core of information technology. Develop skills in computer networking or programming in the growing field of applied information technology.

Washtenaw Community College offers programs at several levels for students who want to begin new careers, or advance in their existing careers. The first level is the certificate, which can vary from nine to thirty-six credits, depending on the field. Certificates generally prepare students for entry-level jobs.

After completing a certificate, students can progress to the next level, the advanced certificate. The credit hours required for these programs also vary. This type of certificate provides a more specialized level of skill development, and often allows students to upgrade their positions at their places of employment.

The next level, an Associate in Applied Science, is available for some programs. For some career fields, it is possible to earn a certificate, advanced certificate, and an Associate in Applied Science degree in the same field. In these cases, the credit hours from the certificate and advanced certificate can be applied to the credit hours needed for the Associate in Applied Science degree.

Alternatively, students can earn an AAS in Occupational Studies by completing a certificate, advanced certificate and General Education requirements.

Networking

Develop and manage computer networks as a network administrator/engineer.

Computer Networking (APCNTM)

Associate in Applied Science Degree

Program Effective Term: Fall 2012

Some employers require or prefer employees to have an associate degree as a condition for employment or for advancement. Students can earn an Associate in Applied Science Degree in Computer Networking by completing the requirements listed.

Articulation:

Davenport University, Bachelor degree;
Eastern Michigan University, several BS degrees.

PROGRAM CHANGE OR DISCONTINUATION FORM

Program Code: APCNTM Program Name: Computer Networking Associate In Applied Science Effective Term: W2012
 Division Code: BCT Department: Computer Instruction

Directions:

1. Attach the current program listing from the WCC catalog or Web site and indicate any changes to be made.
2. Draw lines through any text that should be deleted and write in additions. Extensive narrative changes can be included on a separate sheet.
3. Check the boxes below for each type of change being proposed. Changes to courses, discontinuing a course, or adding new courses as part of the proposed program change, must be approved separately using a Master Syllabus form, but should be submitted at the same time as the program change form.

Requested Changes:

- | | |
|---|---|
| <input type="checkbox"/> Review | <input type="checkbox"/> Program admission requirements |
| <input checked="" type="checkbox"/> Remove course(s): ELE 299; reduce electives | <input type="checkbox"/> Continuing eligibility requirements |
| <input checked="" type="checkbox"/> Add course(s): BMG 205 | <input type="checkbox"/> Program outcomes |
| <input type="checkbox"/> Program title (title was) | <input type="checkbox"/> Accreditation information |
| <input type="checkbox"/> Description | <input type="checkbox"/> Discontinuation (attach program discontinuation plan that includes transition of students and timetable for phasing out courses) |
| <input type="checkbox"/> Type of award | <input type="checkbox"/> Other |
| <input type="checkbox"/> Advisors | |
| <input type="checkbox"/> Articulation information | |

Show all changes on the attached page from the catalog.

Rationale for proposed changes or discontinuation:

Change the ELE 299 Customer Relations requirement to BMG 205 Creating the Customer Experience, to provide the students with a more rounded, generic business approach to the subject.

Financial/staffing/equipment/space implications:

None

List departments that have been consulted regarding their use of this program.

None. This only affects the Computer Systems Technology certificate, and Computer Networking Associate degree programs, which are both in our department.

PROGRAM CHANGE FORM

Program Code:

Program Name:

Effective Term:

APCNTM

Computer Networking

200409

Directions:

1. Attach the current program listing from the WCC catalog and indicate any changes to be made.
2. Draw lines through any text that should be deleted and write in additions. Extensive narrative changes can be included on a separate sheet.
3. Check the boxes below for each type of change being proposed. Changes to courses, discontinuing a course, or adding new courses as part of the proposed program change, must be approved separately using a Course Syllabus Form, but should be submitted at the same time as the program change form.

Requested Changes:

- Remove 5 course(s)
- Add 4 course(s)
- Total credits: Current credits 60 After changes 60
- Title (title was _____)
- Description
- Advisors
- Articulation information
- Program admission requirements
- Continuing eligibility requirements
- Program outcomes
- Other _____

Show all changes on the attached page from the catalog.

Rationale for proposed changes:

As currently drafted, the program description for the Computer Networking Degree requires successful completion of the Certificate in Computer Systems Technology. The Computer Systems Technology program is being changed to delete courses CIS 121 and CPS 120. The changes on the attached page add CIS 121 and CPS 120 to the program. (Without these courses, the program falls below the 60 credit hour threshold for an AAS degree).

Financial/staffing/equipment/space implications:

No impact

List departments that have been consulted regarding the use of this program.

Computer Networking (APCNTM)
Associate in Applied Science Degree

Program Effective Term: Fall 2004

Some employers require or prefer employees to have an associate degree as a condition for employment or for advancement. Students can earn an Associate in Applied Science Degree in Computer Networking by completing the requirements listed below.

Continuing Eligibility Requirements:

Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

General Education Requirements (18 credits)

Writing	Elective(s)	3-4
Speech	Elective(s)	3
Math	Elective(s)	3-4
Nat. Sci.	Elective(s)	3-4
Soc. Sci.	Elective(s)	3
Arts/Human.	Elective(s)	3

Major/Area Requirements (42 credits)

	Complete the Computer Systems Technology Certificate (17 credits).	
CST 118	MC Command Line Fundamentals	2
CST 150	Computer Systems Technology I	5
CST 155	Computer Systems Technology II	5
CST 225	Computer Systems Technology III	3
	Complete ELE 174 ELE Co-op Education I or ELE 299 Customer Relations	2
	Complete the Computer Networking Academy I Advanced Certificate (16 credits). CNT 206, CNT 216, CNT 226, and CNT 236 or Complete the Computer Networking Operating Systems I Advanced Certificate (14 credits). CNT 201, CNT 211, CNT 221, and CNT 224	14-16
CIS 121	Linux/UNIX Fundamentals	3
CPS 120	Intro to Computer Science	3
	Complete 1-5 additional credits to bring the total to 60 credits	5

Minimum Credits Required for the Program: 60

Washtenaw Community College Program Change Request Form

Program Code:
APCNTM

Program Name: **Associate Degree - Computer Networking**

Effective Term: **Fall 2002**

Attach the current program listing from the WCC catalog and indicate any changes that you would like to make. Draw lines through anything that should be removed and write in any additions. Extensive narrative changes may be included on a separate sheet. Check the boxes below for each type of change being proposed. If you are making changes to courses or proposing new courses (that don't currently exist) as part of this proposal, they must be approved separately using a Course-Syllabus Approval Form (CSAF).

1. Requested Changes:

- Remove ____ Course(s)
 Add ____ Course(s)
 Increase/Decrease Total Credits: Current Credits ____ After Changes
 Course Sequence
 Name (new name _____)
 Description

- Advisors
 Articulation Agreements
 Program Admission Requirements/Procedures
 Continuing Eligibility Requirements
 Footnotes
 Other Add in Microsoft Certificate as an alternate to the CISCO Certificate to obtain this Associate Degree.

Show all changes on the attached program sheet.

Rationale for Proposed Changes: On page 98, in the description for the Associate in Applied Science Degree for Computer Networking I (APCNTM), the option for the Computer Networking Operating Systems (CVCNOS) Certificate as an alternative way to achieve this degree was inadvertently left off. The diagrams shown on page 96 of the catalog (see attached) does show the two alternatives correctly, with a path shown for either certificate. This Program Change Request Form is being submitted to request that the new catalog be updated with this correction.

Note: The changes as proposed on the attached page and on the sheet attached showing the diagram, reflect program changes to Microsoft Program planned to go into effect this fall. These changes, (forms which have been submitted previously), split the existing Microsoft Program into two certificates (similar to CISCO). The first certificate, which is part of the Associate Degree, would be 14 credit hours. This meant that the "additional credit hours" portion of the total hours (to bring the total to 60) had to be changed from "1 credit hour" to "1 to 3 credit hours" depending on whether the CISCO or Microsoft Program is chosen.

3. Financial/Staffing/Equipment/Space Implications: NOT APPLICABLE

4. Has the department consulted with all departments that may be impacted? Yes No NA

Comments: ELE, CNT, and CIS Department faculty

Computer Studies

Computer Networking (APCNTM) Associate in Applied Science Degree

Program Effective Term: Fall 2002

Some employers require or prefer employees to have an associate degree as a condition for employment or for advancement. You can earn an Associate in Applied Science Degree in Computer Networking by completing the requirements listed below.

Business and Computer Technologies Division Computer Instruction Department and Electronics Department

Advisors: Michael Galea, Phil Geyer, Roland Meade, John Rinn, John Trame

Continuing Eligibility Criteria:

Students must demonstrate basic computer literacy skills by successfully passing the Computer and Information Literacy Test. The test may be taken at any point during the program, but must be completed before graduating.

Requirements

- | | |
|--|-------|
| 1. Complete the Certificate in Computer Systems Technology (CTCSTC) | 25 |
| 2. Complete the Advanced Certificate in Computer Networking Academy I (CVCNT) or Complete the Advanced Certificate in Computer Networking Operating Systems I (CVCNOS) | 14-16 |
| 3. Complete General Education Requirements for the AAS Degree | 18-21 |
| 4. Complete 1-3 additional credits to bring the total to 60 credits | 3 |

Minimum Credits Required for the Program: 60

Washtenaw Community College Program Change Request Form

Program Code:
APCNTM

Program Name: **Computer Networking**

Effective Term: **Fall 2001**

A program sheet for the above named program is attached. It should reflect any approved changes that have already been submitted for this year. Please review the program sheet carefully and indicate any changes that you would like to make. Draw lines through anything that should be removed and write in any additions. Extensive narrative changes may be written on a separate sheet. Check the boxes below for each type of change being proposed. If courses are being changed as part of this proposal, they must be approved separately, using a Course-Syllabus Approval Form (CSAF).

1. Requested Changes:

- | | |
|---|--|
| <input checked="" type="checkbox"/> Remove Course(s) | <input type="checkbox"/> Advisors |
| <input type="checkbox"/> Add Course(s) | <input type="checkbox"/> Articulation Agreements |
| <input checked="" type="checkbox"/> Increase/Decrease Credits | <input type="checkbox"/> Program Admission Requirements/Procedures |
| <input type="checkbox"/> Course Sequence | <input type="checkbox"/> Continuing Eligibility Requirements |
| <input type="checkbox"/> Name (new name _____) | <input type="checkbox"/> Footnotes |
| <input type="checkbox"/> Major/Program Code (new code _____) | <input type="checkbox"/> Other _____ |
| <input type="checkbox"/> Description | |

Show all changes on the attached program sheet if possible.

Rationale for Proposed Changes:

Reflects changes in the Adv. Certificate (CNT)

3. Financial/Staffing/Equipment/Space Implications:

4. Has the department consulted with all departments that may be impacted? Yes No NA
